Inspector Comment

April 15, 2005, 1315-1330 hours:

I received Complaint # 175345 while in the field from the AQMD Radio Room Dispatcher. I contacted [PRVY-Controlled/Privacy] regarding his complaint of odors from Eldon Collections. [PRVY-Controlled/Privacy] informed me the odors occur on a daily basis and is worst on some days. Usually he smells the odors at the 7 to 8 o'clock hours, when he arrives at work. [PRVY-Controlled/Privacy] informed me the odors were "acidic" this morning and usually, it's "a paint thinner odor" he smells. Next, I asked [PRVY-Controlled/Privacy] if the odor was still there and he informed me that he could no longer smell it.

I informed [PRVY-Controlled/Privacy] about the requirements of AQMD Rule 402 regarding Nuisances and that I need to identify the odor with him in order to attempt to affect any type of resolution with him. I invited him to contact us again when it happens again. Please see complaint numbers 174805, 174807, and 174808.

Note: Previous Country Affaire complaint #s 173535, 174699, 174805, 174807, 174808, 175137, 175138, and 175140.
